

“GIVING BACK TO OUR MEMBERS”

IACN - Celebrating 20 Years of Chiropractic Neurology **Friday, November 3, 2017 - Sunday, November 5, 2017**

Register Before August 31, 2017 for Tuition Discount!

This year IACN is 20 years old. Some of our members have been with the IACN since day one, and have helped guide the IACN both through the good times and through some troubled times. Whether you have been with us since day one, or just joined yesterday, IACN does not forget its friends and members. So this year, we are pulling out all stops and making this the most comfortable and informative symposium in IACN history. From top International Speakers to provided luncheon, generously catered breaks, Friday Night Reception and Saturday Dinner & Awards gathering, we have worked hard to deserve your support for the next 20 years. We hope to see a big membership turn out for an exceptional program!

This three day symposium **will offer over 30 hours of CE* in two separate educational tracks**, as well as lavish breaks, luncheon every day, a Friday reception, and a Saturday Evening Banquet. As a member of the IACN you are being invited to attend the meeting at a special early registration price of \$399 until August 30, 2017 (\$449 after August 31, 2017). The tuition INCLUDES tickets to all classes and functions. Tuition for non-members is \$579. Friday classes will be held at the luxurious Residence Inn by Marriott, and the balance of classes will be held on the campus of Palmer College of Chiropractic - Florida. Your symposium folder will contain all slides as E-notes (also downloadable prior to the symposium).

Faculty will include internationally respected leaders in chiropractic

neurology and electrodiagnosis. Concise topical lectures by leading faculty, a case presentation/panel discussion, and an optional dissection class are all new additions to our program. We still employ the use of electronic audience participation devices ("clickers") to add interactive discussion.

The Friday Night Reception and the Saturday Night Banquet will be held along side of "The Most Famous Beach in the World", at our brand new venue, the Residence Inn by Marriott - Daytona Beach Oceanfront in Daytona Beach Shores, FL. Dr.'s Dishman and

Ferezy will host the Saturday Banquet & Awards Dinner.

SYMPOSIUM SPEAKERS**

**Anthony L. Rosner, Ph.D. Research in Electrodiagnosis & Chiropractic;
& Physiological Responses to Spinal Manipulation**

**David R. Seaman, DC Behavioral Neurology;
& Hypocapnia: Identification and Treatment.**

Michael W. Hall, DC – Functional Neurological Examination.

Gary R. Smith, DC - Cases in Electrodiagnosis/Neurology.

**Thomas A. Brozovich, DC – Thermography: A Lost Tool;
& Pre-Adjustment VBI Testing: What Should be Done?**

Adam I. Chaifetz, DC – Risk Factors for Cerebrovascular Accidents.

John D. Lockenour – Florida Required Hours.

J. Donald Dishman, DC – Cases in Electrodiagnosis: Panel Discussion.

Joseph S. Ferezy, DC – Cases in Neurology: Panel Discussion

YOU WILL LOVE OUR NEW HOTEL!!

- Residence Inn by Marriott Daytona Beach Oceanfront.
- \$159/nt & No Resort Fee - Includes: Full Breakfast, Parking, Internet & Kitchen

The link for an IACN rooms is available at IACN.org. If you do not use the link, it is important that each guest **contact the Resort at (386) 944-2000 by 10/4/2017** and identify themselves as a member of International Academy of Chiropractic Neurology to ensure that they receive our Group's confirmed rate and that the IACN receives credit for all room nights picked-up.

CE credits have been applied for in select states through **Palmer College of Chiropractic Continuing Education and Events Department**. Questions regarding state approvals may be directed to Palmer at (800) 452-5032.

Others state and provincial boards will be applied for on an as needed basis. - CONTACT IACN IMMEDIATELY if you require license renewal credits in a state not listed above. Additional costs may apply. IBCS Type I Primary Continuing Education Units are approved for the entire program.

** Class speakers and topics are tentative and subject to change without notice.

The 2017 IACN Educational Symposium

SPEAKER SPOTLIGHT – Anthony L. Rosner, Ph.D., LLD [Hon.], LLC

Dr. Rosner, is a 1972 graduate of Harvard University earning a PhD in biological chemistry/medical sciences. Dr. Rosner is a champion of interdisciplinary research in the health sciences, having previously served as research director of the International College of Applied Kinesiology, director of research and education at the Foundation for Chiropractic Education and Research, director of research initiatives at Parker College, department administrator in chemistry at Brandeis University, and technical director of multiple laboratories at a teaching hospital of Harvard University and of an affiliate of the Mayo Clinic. He is a former research director with Apex Energetics, Inc. He was designated as Humanitarian of the Year in 2000 by the American Chiropractic Association and holds an honorary degree from the National University of Health Sciences. Dr. Rosner has a warm and

engaging lecture presentation style, always ready to field questions regarding his extremely clear and well prepared material. Dr. Rosner will briefly review D.D. Palmers concept of “Neural Tone” and relate that to neurotransmitter function. He will also discuss the current status of the use of electrodiagnosis in chiropractic research, including Electroencephalography and surface and needle electromyography, and “array” technique evoked potentials and transcutaneous nerve stimulation. He will review aspects of Applied Kinesiology related to electrodiagnosis and discuss research that he has personally performed in this area. Dr. Rosner will also review the scientific literature in regard to musculoskeletal and non-musculoskeletal physiologic responses to chiropractic manipulation.

SPEAKER SPOTLIGHT – David R. Seaman, DC

Dr. Seaman received his Bachelor of Science degree (Biology) from Rutgers University in 1982. He received his Doctor of Chiropractic degree from New York Chiropractic College in 1986, and his Masters in Science (Biology/Nutrition) from the University of Bridgeport in 1991. He has served as Professor, Department of Clinical Sciences, National University of Health Sciences, and as a consultant and Director of Clinical Education for Anabolic Laboratories. Dr. Seaman was formerly an Adjunct Associate Professor in Clinical Sciences at Palmer College of Chiropractic Florida. He is on the Post Professional Faculty of National University of Health Sciences, New York College of Chiropractic, and Northwestern Health Sciences University. He is past Director of the Council on Nutrition of the American Chiropractic Association.

Dr. Seaman has been writing and presenting information about chronic inflammation for 25 years. He was interested in this topic long before it become a mainstream topic of focus in relation to chronic disease expression. Dr. Seaman has written many articles and two books on the topic. He coined the term “diet-induced proinflammatory state” which has been cited as a reference in numerous articles, including publications by Harvard Medical School and the Center for Disease Control (CDC). Dr. Seaman will explore Hypocapnia (reduced blood levels of carbon dioxide) and how to identify and treat this common but rarely identified disorder. He will also discuss the Neurology of Ethics and self control, using his well prepared and presented highly informative and always humorous lecture style.
